## OKLAHOMA REPUBLICANS WAITING TO ANNEX I. T.

Guthrie, Okla., April 10.—It has been finally decided by the republican leaders in Oklahoma that the bill, recently introduced in congress providing for the extension of Oklahoma laws over Indian territory, will be allowed to lie dormant until after final action on the statehood bill is secured. Then, whether or not the statehood bill, the "law extension" bill will be pushed through both houses, if possible.

This bill, in a nutshell, places Oklahoma's boundary lines around Indian territory, giving Oklahoma's governor power over the combined territory. It provides for changing the recording districts of Indian territory into counties and authorizes Governor Frantz of Oklahoma to appoint all the county officers temporarily. It is said the bill, ultimately will make the 98th degree longitude

the dividing line between the judicial districts, throwing the Osage nation into the present Indian territory, and a part of the Chickasaw nation into the present Oklahoma jurisdiction.

Local republican leaders have learned that many Indian territory politicians do not favor the authority given to Governor Frantz to appoint all the county officers. On the contrary they believe a commission should be named to select these officers, the commission possibly to be composed of the federal judges in Indian territory, with Governor Frantz also a member, in case such an agreement can be reached. While it is known that local leaders do not wish to antagonize the Indian territory fellows, yet no final decision has been reached regarding the proposition of appointing the new county officers.

## ERUPTION OF VESUVIUS DESTROYS 500 PEOPLE

Naples, April 10.—Reports of fatalities consequent upon the eruption of Mount Vesuvius are coming in. According to information received late last night probably 500 lives were lost. It is said that more than 200 perished in the district of San Guiseppe while from the ruins of a church which collapsed owing to the weight of ashes on the roof, forty-nine corpses were extricated, and it is asserted that at Sorrento thirty-seven persons were killed by falling houses.

A railway train from San Guiseppe for Naples was derailed

owing to showers of stones from the crater. Cavalry proceeding to the succor of the inhabitants of the devastated section have been unable to make progress, the rain falling on the ashes a foot deep having made it impossible for the horses to travel.

The sea is greatly agitated. The sky has cleared, but heavy clouds hang over the East, threatening a further downpour. The streams of lava are almost stationary. Troops are erecting barriers in the direction of Pompeii to prevent further danger in that quarter.

## A PERTINENT MESSAGE ON REMOVAL OF RESTRICTIONS

At a mass meeting of Ada citizens Monday night called primarily to consider the status of the Oklahoma Central railroad bonus, our troubles at Washington were also taken up. As a result an urgent telegram was framed and sent to the Capital. It reads: Senator Spooner and Curtis bill conferees. Washington, D. C. The failure of Congress to provide for alienation of surplus Indian lands injures every man, woman and child, red, white or black, in the Indian Territory. Each Indian family's thousand acres must remain in its wild state, valueless to them except where opened up by white tenants under a lease system that drags their families from hovel to hovel each year with their children growing up in ignorance and squalor. This system of peonage is a disgrace to the American congress. Removal of restrictions on surplus which, represents about one-tenth of each family's allotment, will people this country with home owning farmers and surround the Indian with industry, schools and churches—greatly enhancing the value of his other lands and thus solve the Indians' future in the only

rational way.

A Nice Word for Mr. Tolbert.

The Hornet received a letter last week from our old friend, J. B. Tolbert, who has located in Ada, I. T. He is engaged in the abstract, insurance and loan business. Zone, as he is better known in this country, was one of Vernon's most substantial citizens, and was for many years deputy county and district clerk. He was also justice of the peace of this precinct. Mr. Tolbert is a man of excellent character, coming from one of the best families in old Tennessee. He made warm friends during his many years in this country, and the good citizens regretted to see him and his estimable family leave. Zone, wherever you cast your lot, you may know that your Vernon friends wish you and your family the best of luck. If you will take a wise man's advice, come on back to old Wilbarger.—Vernon (Tex) Hornet.

## THE RIGHT-OF-WAY WILL COST MORE THAN EXPECTED

There was a fairly good crowd at the mass meeting Monday night called for the purpose of taking some final and imperative action respecting Ada's bonus for the Oklahoma Central railroad. J. W. Hays served as chairman and W. H. Ebey as secretary.

As is well known to the public the Central's proposition is to build into Ada for a bonus of \$20,000 and right of way through the city as far as the oil mill.

After several months diligent canvassing by our committee of citizens \$19,500 of the amount has been secured and closed up by notes. About \$1,000 more remains in unclosed subscriptions. It is now estimated that the right of way desired will cost about \$7,000, which is \$6,500 in excess of the amount so far secured. The committee is firmly of the opinion that no appreciable addition to the subscriptions can be wrung out of the citizens, notwithstanding President Carter's recent urgent letter, which resulted in the calling of the mass meeting. It was decided by the

meeting to present the exact situation to Mr. Carter at once and try to prevail upon him to so modify his proposition that Ada can more easily comply with his terms.

The meeting also considered the discouraging outlook at Washington for legislative relief for Indian Territory. The deliberation resulted in the sending, Monday night, of a lengthy telegram to Senator Spooner and the conference committee on the Five Tribes bill. The message is published in another column of the News.

Fishing Season Begins.

The 1906 fishing season may be said to have fairly begun Tuesday, for the gentlemen named below compose a party which left today for Blue River, about 17 miles south of Stonewall, where they expect to spend the remainder of the week angling for the wary denizens of the deep. Those belonging to the expedition are Mart Walsh, Ike King, Dr. Ligon, Lee and Albert Nettles, H. Sprague, Henry Lucas, George Frierson and Sol Moss.

## ADA CLIMBING AS A DISTRIBUTING POINT

On Tuesday the Central Trust Co., having in charge the commissary department of the Oklahoma Central railroad work, established in Ada its headquarters for the whole line from Lehigh to Purcell. The supplies for all the construction crews will be distributed from here, and of course the business done is considerable. A branch store will be maintained at Stonewall and later one at Byars.

The headquarters are under

the management of J. C. Sparger, assisted by Wade Stevens and by Miss Grace Boyle, as stenographer; and are located in the old Millway-Douglass-Upp building on Main street. The business will be run in Ada for at least six months.

Due to unavoidable circumstances the Empire will suspend all its performances for a few days. 15 2t

## ODD POINT IN AUTO CASE.

Relatives of Victim Hold Motorist Who Raised Dust Partly to Blame for Accident.

Paris.—A curious point in an action against a motor car driver came before the judges of the French chamber. It was a question as to whether a chauffeur who had raised dust could be proceeded against for homicide for carelessness.

On May 1 last an automobile passed a cyclist on the road between Melun and Paris. The car raised a cloud of dust, with the result that the cyclist could not see his way. His machine swerved, and he was overtaken by another motor car, which knocked him down and killed him.

Could the driver of the first car, which had raised a cloud of dust, be held responsible for the accident caused by the second car? The case came before the Corbeil court, which imposed a fine of \$200 on the driver of the second car, besides compelling him to pay \$600 compensation. But the driver of the car which caused the dust to fly was acquitted, and his claim for \$40 for being unjustly prosecuted was allowed against the family of the cyclist who was killed. This decision was appealed against.

## BODY GIVEN TO COLLEGE.

Aged Convict's Request Carried Out by Prison Authorities at Michigan City, Ind.

Michigan City, Ind.—The body of the dead life convict, James Blackwood, who was the oldest inmate of the state prison, was taken to the Valparaiso college for dissection by the medical department.

Blackwood died in the prison hospital after serving 18 years behind the prison bars. He had been here since the transfer from Jeffersonville in 1897.

As Blackwood was dying there stood beside his cot James L. Myers, the murderer who was given a pardon by Gov. Hanly. Myers was found praying for the dying convict when the glad tidings of the pardon came to his ears.

Blackwood served 18 years for a murder in Clay county in 1887. All that remains of his family is a son residing in Texas. The son was notified after death, but made no reply.

The crime for which James Blackwood was sentenced occurred while a party was returning from a dance in Benwood, Clay county, to Cardonia. Blackwood quarreled with his wife. In the fight which followed the woman was knocked down and sustained four broken ribs. She was wrapped in a bundle of straw and left by the roadside, where she was found in the morning. She died soon after. Blackwood pleaded guilty and was sentenced by the late Judge Coffee, of Brazil.

## Steamboat Ran Into Geese.

Capt. Bailly Reed, master of the river steamer Harry Randall, reports a singular occurrence that happened on the trip of his steamer up the Potomac river the other night. Capt. Reed says that the attention of the men in the pilot house was attracted to a singular noise in the air over the steamer, as if she were passing through a flock of big birds. Turning on the searchlight, it was discovered that a large flock of wild geese, flying low, had run afoul of the steamer, and, blinded by the rays of the searchlight, were flying wildly about the smokestack. Several of the big birds struck the stack, but fell into the water, where they could not be recovered in the darkness. The men on the steamer fired on the geese, but failed to bring any home, though they claim they shot several.

## Identity in Street Car.

They were going to the theater. The car was crowded, and there being two or three polite men left in Indianapolis, one of the two or three gave her a seat in the forward end of the car. He remained on the platform to finish a cigar. She always lets him do that.

When the conductor came along the smoker possessed of a "steady" girl presented two tickets.

"Who is this for?" asked the ticket procurer.

"The lady up in front."

"Yes, but there are several up there."

"Oh, well, let's see; I'm paying for the one under Eat-em-Quick biscuits."

—Indianapolis News.

## The Pecan State.

Texas is the greatest pecan-growing section in the world. Pecans are a valuable food product. Cultivation of pecans is a profitable industry, the trees in many orchards being valued at \$100 each. Experts declare the crop will pay more in proportion to the care given and money invested than any other crop. There are pecan orchards in Texas more than 1,000 acres in extent, and even larger ones are to be created.—Dallas News.

## ENGLISH CIVIL SERVICE.

Laws Strictly Enforced—No Man Appointed or Dismissed for Politics.

The civil service laws of Great Britain are rigidly enforced. Civil servants obtain their positions by merit after examination, and retain their places during good behavior if competent, says the Philadelphia Ledger. The incoming of the new liberal government in England will not disturb a single postmaster in the United Kingdom. The vast army of clerks, subordinates and under officials of all kinds will scarcely be aware of the fact that there is a change of administration. There are a certain number of higher officials whose posts are properly considered political, inasmuch as they are entrusted with the duty of carrying out a liberal and conservative policy; but the mass of officeholders are secure in their positions, and so well fixed is the policy of maintaining a permanent force of trained officials that the removal of ordinary civil servants for political reasons would be left by the people generally to be a violent and unjustifiable act which would react with terrible force upon the ministry.

It is not to be supposed that the English, because of this admirable system, have been elevated into a rarefied atmosphere where partisanship has been banished, or that party zeal is not rewarded. In addition to the 45 leading officials of a political character, with an annual salary list of \$786,000, who step "down and out" with a change of ministry, each government during its term of life fills a large number of vacancies caused by deaths, resignations, disability and removal for incompetence. Naturally the ministry in power gives the places, as a rule, to members of its own party. During the ten years of recent conservative rule the conservative party has had the appointment of 35 judges in the United Kingdom, with aggregate salaries of \$1,060,000 a year, in addition to an army of recorders, clerks, minor magistrates and the like. Many of the appointees were conservatives, but the liberal government will not touch a man of them for political reasons.

The colonial service, with its 23 viceroys, governors and commissioners, affords rich patronage, and a ministry is always reluctant to give up its power and resign unless compelled to do so, because it wishes to protect the political officials in office and their personal appointees, who lose office with them; but the great army of civil employees are divorced from politics and are safe. Interest in politics in England is nevertheless very acute, and the administration of justice and of the several departments of the government is quite as efficient as our own.

## SWEDEN A MEDICAL WONDER

Man Whose Main Diet Is Apples Paddles Canoe from Stockholm to Paris.

Paris.—Medical men now are occupied with the case of Gustav Nordin, a hardy Swede, who paddled his own canoe from Stockholm to Paris and reached here in robust health after the long voyage during which he lived on apples, milk, water and bread.

The Swede states that he undertook the dangerous and arduous voyage to show what could be done by a man who has given up meat, tea, coffee, wine, beer, spirits and tobacco. He prides himself in eclipsing vegetarians and returning to the system that is termed natural alimentation.

Nordin agreed to allow the doctors to draw some blood from his legs and arms for the purpose of analysis. He states that when in America at the age of 18 he found he could not eat ordinary food and was suffering, so he began a diet of fruit, principally apples, on which he thrived and became the robust person he is to-day.

## GIVES CASH FOR HER PETS

Actress Bequeaths \$15,000 for Care of Animals at Death—Were Her Only Companions.

New York.—The fact that Cecilia A. Wolsey, who was formerly a performer on the vaudeville stage under the name of Lillian Western, bequeathed \$15,000 for the care of her dog, parrot and a cage of love birds, became known when her will was filed. Harriet E. Gates, a friend of the dead woman, is charged with the care of the animals, and Miss Wolsey's will provides that she shall have the use of the \$15,000 for that purpose. After the death of Mrs. Gates the will stipulates that the remainder of the money shall go to the American Society for the Prevention of Cruelty to Animals to care for Miss Wolsey's pets if they outlive Mrs. Gates, and, if not, to care for other homeless animals. Miss Wolsey was a "musical specialist" of the vaudeville stage and retired from it a year ago, having only her pets as companions.

## Imports in 1905.

The total appraised value of merchandise handled by Appraiser Whitehead of the United States customs office at New York last year was \$705,011,497, an increase of \$72,500,000 over 1904, according to a statement. The chief lines of foreign merchandise and their appraised values were: Sugar, \$71,000,000; wool and woolen goods, \$64,000,000; coffee and cocoa, \$60,000,000; precious stones and pearls, \$37,000,000; cigars and tobacco, \$15,000,000; wines and liquors, \$11,000,000, and 1,054 automobiles, valued at \$4,000,000.

## ENGLISH WOMEN UNTIDY.

Oriental Artist Declares Their Gait Is Ungainly and Their Figures Out of Poise.

London.—Yoshio Markino, a Japanese artist at present in this country, deprecates the ungainly carriage of the Englishwoman.

"The London ladies have such nice faces and such pretty figures. How sad it is that they carry themselves so badly!" is his criticism.

"I walk up and down this great city," he continued. "I notice that the ladies are so awkward. Their arms are huddled up, their elbows are too much in evidence, the skirt is caught up untidily by one hand, throwing the whole figure out of poise."

"I believe the reason is that everybody in this country is too active, too much in a hurry—not only the men who work, but the women also. How long can one be graceful under these circumstances? The women of my country are so happy and peaceful. They are never in haste."

As to dress, Mr. Markino said: "The ladies of England are too fond of fashion. They copy the ladies of France. What will suit a Frenchwoman will never suit the Englishwoman. I do not like these short sleeves. They are out of place. I see a smart girl with a short sleeve. She seems to say to me: 'See, now, I am ready to do the scrubbing.'"

Another point which astounds him is the assurance of the English girl.

"She walks along with her head in the air, so haughty," Mr. Markino said. "She is afraid of nothing. In our country to do so would not be modest. Our women go always with eyes cast to the ground. They are content to be women. They do not care to be 'masculines.'"

## Lemon Cookies.

Four cupfuls of sifted flour, one teaspoonful of butter, two cupfuls of sugar juice of one lemon and the grated peel from the outside, three eggs whipped very light; beat thoroughly each ingredient, adding at the last a half-teaspoonful of soda dissolved in a teaspoonful of milk. Roll out as any cookies and bake a light brown.

## Ginger Snaps.

One cupful molasses, one-half cupful sugar, one tablespoonful ginger, one teaspoonful soda, one-half cupful softened butter; flour to roll out thin. Heat the molasses and pour over the sugar; then add the other ingredients. Cut out in pretty forms and bake quickly.—N. Y. World.

## Sago Gruel for Invalids.

Two cups of water, two tablespoonfuls of sago, one tablespoonful of lemon juice and a pinch of salt. Put the sago in the water while cold, and warm by setting in a saucepan of boiling water. Stir often, and let it soften and heat for one hour. Then boil ten minutes, stirring all the time; add the sugar, wine and lemon, and pour into a bowl or mold to cool. Eat warm, if preferred.—Chicago Record-Herald.

## Postponing the Day.

Widow (with marriageable girls)—Julia has a most lovely voice, major—so powerful, you know; but for ringing, silvery tone, give me my second daughter's. Would you like to hear her sing "Some Day?"

Major (awfully bored)—Certainly! Delighted, I'm sure! Let's say some day next month; that is—er—unless I'm unexpectedly ordered away anywhere.—Stray Stories.

## Odd London Club.

The "Silence club's" membership is limited to ten, all of whom are season ticket-holders on a London suburban railway, and the subscription is sixpence weekly. It was established solely to enable the members to read the paper on the way to town. The revenue derived from subscriptions is handed to the guard every Saturday morning, and he reserves a carriage for the members.

## School Board Meeting.

The Ada school board held a called session Tuesday morning. Most of the proceedings were in executive session. The schools having closed in the middle of the last school month through no fault of either the board or teachers, a question had arisen as to whether the teachers should be paid for the remaining half month. After due deliberation the board were convinced that from a legal standpoint the teachers were entitled to such pay, and they decided to so pay all who might demand the additional salary.

The matter of employing subordinate teachers for next year came up, but scarcely any action properly termed definite was taken. Yet it was reliably reported that a number of the old teachers were unanimously mentioned favorably, and that in case these should apply for re-election, they would in all probability be selected without a dissenting vote.

## Pirating Foley's Honey and Tar.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for Foley's Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. For Sale by G. M. Ramsey, Druggist.

## Doctors Endorse It.

Lang Bros., Druggists, Paducah, Ky., write: "We sell more of Dr. Mendenhall's Chill and Fever Cure than all other remedies combined, having retailed over 700 bottles in one season. Physicians here prescribe it and persons who once use it will have no other. Sold by G. M. Ramsey, Druggist."

## Notice to Sunday School Workers.

The superintendents of Sunday Schools and pastors of churches are hereby notified that the Indian Territory Sunday School Association will convene in Atoka on May 8th and last three days. The superintendents and pastors will please announce to their Sunday Schools and Churches the time and place of the convention and urge that the Sunday Schools elect delegates to said convention as soon as convenient and send the names of the delegates to the chairman of the executive committee at Atoka. Atoka is making preparations to entertain a thousand delegates during the convention and it is very necessary that the names of the delegates be sent to the local committee at least a week before the convention convenes. The superintendents and pastors of the Sunday Schools and churches in Atoka are making announcement of the coming convention at each service. This they have agreed to do up to the time the convention assembles. Will the superintendents and pastors who are interested in this work please keep the convention before their people and urge them to elect the necessary delegates? Atoka is going to entertain all delegates free. In order to do this successfully, we will have to have the names of all the delegates early in May so that we may have them placed before the date of the convention. We are going to have with us during the convention Marion Lawrence of Toledo, Ohio, who is the general secretary of the Sunday schools of the United States and one of the greatest Sunday school workers in the world; Granville Jones of Texas, another star in Sunday school work will be present and take part in the program; also Mr. L. L. Allen of Missouri.

In order to make this coming convention a decided success, it will be necessary for all Christian people throughout the country to take active part and deep interest in the work and see that the matter is not neglected. The Atoka people as well as the members of the executive committee are anxious that every Sunday school in the Indian Territory be represented at the convention.

Trusting that the pulpit and the press will keep the convention before the people up to the time that it meets and that there will be a thousand delegates in attendance, I am,

Yours very truly,

G. T. Ralls,  
Chairman of Executive Committee of Atoka.  
Will Interest Many.

Is the Moon Inhabited

Science has proven that the moon has an atmosphere, which makes life in some form possible on that satellite; but not for human beings, who have a hard enough time on this earth of ours; especially those who don't know that Electric Bitters cure headache, biliousness, malaria, chills and fever, jaundice, dyspepsia, dizziness, torpid liver, kidney complaints, general debility and female weaknesses. Unequaled as a general tonic and appetizer for weak persons and especially for the aged. It induces sound sleep. Fully guaranteed by G. M. Ramsey and Dr. F. Z. Holley Druggists. Price only 50c.

## Human Blood Marks

A tale of horror was told by marks of human blood in the home of J. W. Williams, a well known merchant of Bac, Ky. He writes: "Twenty years ago I had severe hemorrhages of the lungs, and was near death when I began taking Dr. King's New Discovery. It completely cured me and I have remained well ever since." It cures Hemorrhages, Chronic Coughs, Settled Colds and Bronchitis, and is the only known cure for Weak Lungs. Every bottle guaranteed by G. M. Ramsey and Dr. F. Z. Holley, Druggists. 50c and \$1.00. Trial bottle free.

Never in the History of Ada Has There Been Such a Cut in Prices  
As Will Commence Here Next

## Wednesday, April 11, at 8:00 a. m.

At the Big Reed & Harrison and A. R. Sugg & Co's. Furniture Store.

The whole city will be astir. The people for miles and miles will be in an uproar. The greatest cash getting sale that has ever been inaugurated is scheduled to take place regardless of weather or conditions in the town of Ada, Wednesday, April 11, at 8 a. m. The call is here for you. Your dollar will do wonders. It is a merchandise battle such as never before witnessed within the walls of the city. Two large merchandise establishments behind the guns with sleeves up, working as never before in our lives to turn these gigantic stocks into cash. It's simply pouring cannon balls into those so-called war price cryers, who usually clamor for their regular 50 per cent. With us it is cash we want and not large profits. Your hard earned dollar will do wonders and it's facts in large letters that one dollar with us will do more cash buying for 10 days than two will do elsewhere on hundreds of items. Come, see for yourself. We can show you.

Commencing Wednesday, April 11, at 8 a. m., and continuing for ten days without break, rain, sunshine or blizzard, the battle for cash begins with Reed & Harrison to the wheel, with all of our clothing, all of our dress goods, all of our shoes, all of our socks, suspenders and handkerchiefs, all of our shirts, all of our men's underwear, all of our dry goods, notions, all of our towels, and ten thousand other items too numerous to mention, together with all of our tables, chairs, dressers and pictures, all of our carpets and rugs, all of our davenport and hammocks, and hundreds of other furniture items, under the combined roofs of these two mammoth stores, comprising \$30,000 worth of high class dry goods, clothing, shoes, furnishings, etc., for Reed & Harrison, together with \$15,000 worth of fine furniture of the A. R. Sugg Co.'s store put upon the market at cash getting prices, low enough to cause competition to quake and tremble, and makers to weep tears of deep sorrow. War price cryers will holler, but we can't help it. It's cash we are after. Only 10 days to do the work of a month. Cash, we must have a barrel full and not a small one either. We are sending word to all the people that Wednesday, April 11, at 8 a. m., two mammoth stocks are launched upon the sea of low prices for a struggle of a lifetime for the almighty dollar. Your dollar will do wonders for ten days at these two large stores. It will do the work of two elsewhere. Remember the date, Wednesday, April 11. The place, Reed & Harrison and A. R. Sugg Co. A sale long to be remembered. Your friends will all be here. It is to your interest to come too. Below we quote you a few of the thousands of bargains to be found for 10 days. Read every price carefully.

## OKLAHOMA REPUBLICANS WAITING TO ANNEX I. T.

Guthrie, Okla., April 10.—It has been finally decided by the republican leaders in Oklahoma that the bill, recently introduced in congress providing for the extension of Oklahoma laws over Indian territory, will be allowed to lie dormant until after final action on the statehood bill is secured. Then, whether or not the statehood bill, the "law extension" bill will be pushed through both houses, if possible.

This bill, in a nutshell, places Oklahoma's boundary lines around Indian territory, giving Oklahoma's governor power over the combined territory. It provides for changing the recording districts of Indian territory into counties and authorizes Governor Frantz of Oklahoma to appoint all the county officers temporarily. It is said the bill, ultimately will make the 95th degree longitude

the dividing line between the judicial districts, throwing the O-age nation into the present Indian territory, and a part of the Chickasaw nation into the present Oklahoma jurisdiction.

Local republican leaders have learned that many Indian territory politicians do not favor the authority given to Governor Frantz to appoint all the county officers. On the contrary they believe a commission should be named to select these officers, the commission possibly to be composed of the federal judges in Indian territory, with Governor Frantz also a member, in case such an agreement can be reached. While it is known that local leaders do not wish to antagonize the Indian territory fellows, yet no final decision has been reached regarding the proposition of appointing the new county officers

## A PERTINENT MESSAGE ON REMOVAL OF RESTRICTIONS

At a mass meeting of Ada citizens Monday night called primarily to consider the status of the Oklahoma Central railroad bonus, our troubles at Washington were also taken up. As a result an urgent telegram was framed and sent to the Capital. It reads: Senator Spooner and Curtis bill conferees. Washington, D. C.

The failure of Congress to provide for alienation of surplus Indian lands injures every man, woman and child, red, white or black, in the Indian Territory. Each Indian family's thousand acres must remain in its wild state, valueless to them except where opened up by white tenants under a lease system that drags their families from hovel to hovel each year with their children growing up in ignorance and squalor. This system of peonage is a disgrace to the American congress. Removal of restrictions on surplus which represents about one tenth of each family's allotment, will people this country with home owning farmers and surround the Indian with industry, schools and churches—greatly enhancing the value of his other lands and thus solve the Indians' future in the only

rational way.

A Nice Word for Mr. Tolbert.

The Hornet received a letter last week from our old friend, J. B. Tolbert, who has located in Ada, I. T. He is engaged in the abstract, insurance and loan business. Zone, as he is better known in this country, was one of Vernon's most substantial citizens, and was for many years deputy county and district clerk. He was also justice of the peace of this precinct. Mr. Tolbert is a man of excellent character, coming from one of the best families in old Tennessee. He made warm friends during his many years in this country, and the good citizens regretted to see him and his estimable family leave. Zone, wherever you cast your lot, you may know that you'll Vernon friends wish you and your family the best of luck. If you will take a wise man's advice, come on back to old Wilbarger.—Vernon (Tex) Hornet.

## THE RIGHT-OF-WAY WILL COST MORE THAN EXPECTED

There was a fairly good crowd at the mass meeting Monday night called for the purpose of taking some final and imperative action respecting Ada's bonus for the Oklahoma Central railroad. J. W. Hayes served as chairman and W. H. Ebeey as secretary.

As is well known to the public the Central's proposition is to build into Ada for a bonus of \$20,000 and right of way through the city as far as the oil mill.

After several months diligent canvassing by our committee of citizens \$19,500 of the amount has been secured and closed up by notes. About \$1,000 more remains in unclosed subscriptions. It is now estimated that the right of way desired will cost about \$7,000, which is \$6,500 in excess of the amount so far secured. The committee is firmly of the opinion that no appreciable addition to the subscriptions can be wrung out of the citizens, notwithstanding President Carter's recent urgent letter, which resulted in the calling of the mass meeting. It was decided by the

meeting to present the exact situation to Mr. Carter at once and try to prevail upon him to so modify his proposition that Ada can more easily comply with his terms.

The meeting also considered the discouraging outlook at Washington for legislative relief for Indian Territory. The deliberation resulted in the sending, Monday night, of a lengthy telegram to Senator Spooner and the conference committee on the five Tribes bill. The message is published in another column of the News.

Fishing Season Begins.

The 1906 fishing season may be said to have fairly begun Tuesday, for the gentlemen named below compose a party which left today for Blue River, about 17 miles south of Stonewall, where they expect to spend the remainder of the week angling for the wary denizens of the deep. Those belonging to the expedition are: Mart Walsh, Ike King, Dr. Ligon, Lee and Albert Nettles, H. Sprague, Henry Lucas, George Frierson and Sol Moss.

## ERUPTION OF VESUVIUS DESTROYS 500 PEOPLE

Naples, April 10.—Reports of fatalities consequent upon the eruption of Mount Vesuvius are coming in. According to information received late last night probably 500 lives were lost. It is said that more than 200 perished in the district of San Giuseppe while from the ruins of a church which collapsed owing to the weight of ashes on the roof, forty nine corpses were extricated, and it is asserted that at Sorrento thirty-seven persons were killed by falling houses.

A railway train from San Giuseppe for Naples was derailed

owing to showers of stones from the crater.

Cavalry proceeding to the succor of the inhabitants of the devastated section have been unable to make progress, the rain falling on the ashes a foot deep having made it impossible for the horses to travel.

The sea is greatly agitated. The sky has cleared, but heavy clouds hang over the East, threatening a further downpour. The streams of lava are almost stationary. Troops are erecting barriers in the direction of Pompeii to prevent further danger in that quarter.

## ADA CLIMBING AS A DISTRIBUTING POINT

On Tuesday the Central Trust Co., having in charge the commissary department of the Oklahoma Central railroad work, established in Ada its headquarters for the whole line from Lehigh to Purcell. The supplies for all the construction crews will be distributed from here, and of course the business done is considerable. A branch store will be maintained at Stonewall and later one at Byars.

The headquarters are under

the management of J. C. Sparger, assisted by Wade Stevens and by Miss Grace Boyle, as stenographer; and are located in the old Millway-Douglass Upp building on Main street. The business will be run in Ada for at least six months.

Due to unavoidable circumstances the Empire will suspend all its performances for a few days. 15 2t

## ODD POINT IN AUTO CASE.

Relatives of Victim Hold Motorist Who Raised Dust Partly to Blame for Accident.

Paris.—A curious point in an action against a motor car driver came before the judges of the French chamber. It was a question as to whether a chauffeur who had raised dust could be proceeded against for homicide for carelessness.

On May 1 last an automobile passed a cyclist on the road between Melun and Paris. The car raised a cloud of dust, with the result that the cyclist could not see his way. His machine swerved, and he was overtaken by another motor car, which knocked him down and killed him.

Could the driver of the first car, which had raised a cloud of dust, be held responsible for the accident caused by the second car? The case came before the Corbeil court, which imposed a fine of \$200 on the driver of the second car, besides compelling him to pay \$600 compensation. But the driver of the car which caused the dust to fly was acquitted, and his claim for \$40 for being unjustifiably prosecuted was allowed against the family of the cyclist who was killed. This decision was appealed against.

## BODY GIVEN TO COLLEGE.

Aged Convict's Request Carried Out by Prison Authorities at Michigan City, Ind.

Michigan City, Ind.—The body of the dead life convict, James Blackwood, who was the oldest inmate of the state prison, was taken to the Valparaiso college for dissection by the medical department.

Blackwood died in the prison hospital after serving 18 years behind the prison bars. He had been here since the transfer from Jeffersonville in 1897.

As Blackwood was dying there stood beside his cot James L. Myers, the murderer who was given a pardon by Gov. Hanly. Myers was found praying for the dying convict when the glad tidings of the pardon came to his ears.

Blackwood served 18 years for a murder in Clay county in 1887. All that remains of his family is a son residing in Texas. The son was notified after death, but made no reply.

The crime for which James Blackwood was sentenced occurred while a party was returning from a dance in Benwood, Clay county, to Cardonia. Blackwood quarreled with his wife. In the fight which followed the woman was knocked down and sustained four broken ribs. She was wrapped in a bundle of straw and left by the roadside, where she was found in the morning. She died soon after. Blackwood pleaded guilty and was sentenced by the late Judge Coffey, of Brazil.

## Steamboat Ran Into Geese.

Capt. Baily Reed, master of the river steamer Harry Randall, reports a singular occurrence that happened on the trip of his steamer up the Kottowac river the other night. Capt. Reed says that the attention of the men in the pilot house was attracted to a singular noise in the air over the steamer, as if she were passing through a flock of big birds. Turning on the searchlight, it was discovered that a large flock of wild geese, flying low, had run about of the steamer, and blinded by the rays of the searchlight, were flying wildly about the smokestack. Several of the big birds struck the stack, but fell into the water, where they could not be recovered in the darkness. The men on the steamer fired on the geese, but failed to bring any home, though they claim they shot several.

## Identity in Street Car.

They were going to the theater. The car was crowded, and there being two or three polite men left in Indianapolis, one of the two or three gave her a seat in the forward end of the car. He remained on the platform to finish a cigar. She always lets him do that.

When the conductor came along the smoker possessed of a "steady" girl presented two tickets.

"Who is this for?" asked the ticket procurer.

"The lady up in front."

"Yes, but there are several up there."

"Oh, well, let's see; I'm paying for the one under Eat-em-Quick biscuits."

—Indianapolis News.

## The Pecan State.

Texas is the greatest pecan-growing section in the world. Pecans are a valuable food product. Cultivation of pecans is a profitable industry, the trees in many orchards being valued at \$100 each. Experts declare the crop will pay more in proportion to the care given and money invested than any other crop. There are pecan orchards in Texas more than 1,000 acres in extent, and even larger ones are to be created. —Dallas News.

## ENGLISH WOMEN UNTIDY.

Oriental Artist Declares Their Gait is Ungainly and Their Figures Out of Poise.

London.—Yoshio Markino, a Japanese artist at present in this country, deprecates the ungainly carriage of the Englishwoman.

"The London ladies have such nice faces and such pretty figures. How sad it is that they carry themselves so badly!" is his criticism.

"I walk up and down this great city," he continued. "I notice that the ladies are so awkward. Their arms are huddled up, their elbows are too much in evidence, the skirt is caught up untidily by one hand, throwing the whole figure out of poise."

"I believe the reason is that everybody in this country is too active, too much in a hurry—not only the men who work, but the women also. How long can one be graceful under these circumstances? The women of my country are so happy and peaceful. They are never in haste."

As to dress, Mr. Markino said: "The ladies of England are too fond of fashion. They copy the ladies of France. What will suit a Frenchwoman will never suit the Englishwoman. I do not like these short sleeves. They are out of place. I see a smart girl with a short sleeve. She seems to say to me: 'See, now, I am ready to do the scrubbing.'"

Another point which astounds him is the assurance of the English girl.

"She walks along with her head in the air, so haughty," Mr. Markino said.

"She is afraid of nothing. In our country to do so would not be modest. Our women go always with eyes cast to the ground. They are content to be women. They do not care to be 'ma-culines.'"

## Lemon Cookies.

Four cupsful of sifted flour, one teaspoonful of butter, two cupsful of sugar, juice of one lemon and the grated peel from the outside, three eggs whipped very light; beat thoroughly each ingredient, adding at the last a half-teaspoonful of soda dissolved in a teaspoonful of milk. Roll out as any cookies and bake a light brown.

## Ginger Snaps.

One cupful molasses, one-half cupful sugar, one tablespoonful ginger, one teaspoonful soda, one-half cupful softened butter; flour to roll out thin. Heat the molasses and pour over the sugar; then add the other ingredients. Cut out in pretty forms and bake quickly. —N. Y. World.

## Sago Gruel for Invalids.

Two cups of water, two tablespoonfuls of sago, one tablespoonful of lemon juice and a pinch of salt. Put the sago in the water while cold, and warm by setting in a saucepan of boiling water. Stir often, and let it cook and heat for one hour. Then add ten minutes, stirring all the time; add the sugar, wine and lemon, and pour into a bowl or mold to cool. Eat warm, if preferred. —Chicago Record-Herald.

## Postponing the Day.

Widow (with marriageable girls).—Julia has a most lovely voice, major—so powerful, you know; but for ringing, silvery tone, give me my second daughter's. Would you like to hear her sing "Some Day?"

Major (awfully bored).—Certainly! Delighted, I'm sure! Let's say some day next month; that is—er—unless I'm unexpectedly ordered away anywhere. —Stray Stories.

The "Silence club's" membership is limited to ten, all of whom are season ticket-holders on a London suburban railway, and the subscription is sixpence weekly. It was established solely to enable the members to read the paper on the way to town. The revenue derived from subscriptions is handed to the guard every Saturday morning, and he reserves a carriage for the members.

## ENGLISH CIVIL SERVICE.

Laws Strictly Enforced—No Man Appointed or Dismissed for Politics.

The civil service laws of Great Britain are rigidly enforced. Civil servants obtain their positions by merit after examination, and retain their places during good behavior if competent, says the Philadelphia Ledger. The incoming of the new liberal government in England will not disturb a single postmaster in the United Kingdom. The vast army of clerks, subordinates and under officials of all kinds will scarcely be aware of the fact that there is a change of administration. There are a certain number of higher officials whose posts are properly considered political, inasmuch as they are entrusted with the duty of carrying out a liberal and conservative policy; but the mass of officeholders are secure in their positions, and so well fixed is the policy of maintaining a permanent force of trained officials that the removal of ordinary civil servants for political reasons would be left by the people generally to be a violent and unjustifiable act which would react with terrible force upon the ministry.

It is not to be supposed that the English, because of this admirable system, have been elevated into a rarefied atmosphere where partisanship has been banished, or that party zeal is not rewarded. In addition to the 45 leading officials of a political character, with an annual salary list of \$786,000, who step "down and out" with a change of ministry, each government during its term of life fills a large number of vacancies caused by deaths, resignations, disability and removal for incompetence. Naturally the ministry in power gives the places, as a rule, to members of its own party. During the ten years of recent conservative rule the conservative party has had the appointment of 35 judges in the United Kingdom, with aggregate salaries of \$1,060,000 a year, in addition to an army of recorders, clerks, minor magistrates and the like. Many of the appointees were conservatives, but the liberal government will not touch a man of them for political reasons.

The colonial service, with its 23 viceroys, governors and commissioners, affords rich patronage, and a ministry is always reluctant to give up its power and resign unless compelled to do so, because it wishes to protect the political officials in office and their personal appointees, who lose office with them; but the great army of civil employees are divorced from politics and are safe. Interest in politics in England is nevertheless very acute, and the administration of justice and of the several departments of the government is quite as efficient as our own.

## SWEDEN A MEDICAL WONDER

Man Whose Main Diet Is Apples Paddles Canoe from Stockholm to Paris.

Paris.—Medical men now are occupied with the case of Gustav Nordin, a hardy Swede, who paddled his own canoe from Stockholm to Paris and reached here in robust health after the long voyage during which he lived on apples, milk, water and bread.

The Swede states that he undertook the dangerous and arduous voyage to show what could be done by a man who has given up meat, tea, coffee, wine, beer, spirits and tobacco. He prides himself in eclipsing vegetarians and returning to the system that is termed natural alimentation.

Nordin agreed to allow the doctors to draw some blood from his legs and arms for the purpose of analysis. He states that when in America at the age of 13 he found he could not eat ordinary food and was suffering, so he began a diet of fruit, principally apples, on which he thrived and became the robust person he is to-day.

## GIVES CASH FOR HER PETS

Actress Bequeaths \$15,000 for Care of Animals at Death—Were Her Only Companions.

New York.—The fact that Cecilia A. Wolsey, who was formerly a performer on the vaudeville stage under the name of Lillian Western, bequeathed \$15,000 for the care of her dog, parrot and a cage of love birds, became known when her will was filed. Harriet E. Gates, a friend of the dead woman, is charged with the care of the animals, and Miss Wolsey's will provides that she shall have the use of the \$15,000 for that purpose. After the death of Mrs. Gates the will stipulates that the remainder of the money shall go to the American Society for the Prevention of Cruelty to Animals to care for Miss Wolsey's pets if they outlive Mrs. Gates, and, if not, to care for other homeless animals. Miss Wolsey was a "musical specialist" of the vaudeville stage and retired from it a year ago, having only her pets as companions.

## Imports in 1905.

The total appraised value of merchandise handled by Appraiser Whitehead of the United States customs office at New York last year was \$705,011,497, an increase of \$72,500,000 over 1904, according to a statement. The chief lines of foreign merchandise and their appraised values were: Sugar, \$71,000,000; wool and woolen goods, \$64,000,000; coffee and cocoa, \$60,000,000; precious stones and pearls, \$37,000,000; cigars and tobacco, \$15,000,000; wines and liquors, \$11,000,000, and 1,054 automobiles, valued at \$4,000,000.

## School Board Meeting.

The Ada school board held a called session Tuesday morning. Most of the proceedings were in executive session. The schools having closed in the middle of the last school month through no fault of either the board or teachers, a question had arisen as to whether the teachers should be paid for the remaining half month. After due deliberation the board were convinced that from a legal standpoint the teachers were entitled to such pay, and they decided to so pay all who might demand the additional salary.  
The matter of employing subordinate teachers for next year came up, but scarcely any action properly termed definite was taken. Yet it was reliably reported that a number of the old teachers were unanimously mentioned favorably, and that in case these should apply for re-election, they would in all probability be selected without a dissenting vote.

## Notice to Sunday School Workers.

The superintendents of Sunday Schools and pastors of churches are hereby notified that the Indian Territory Sunday School Association will convene in Atoka on May 8th and last three days. The superintendents and pastors will please announce to their Sunday Schools and Churches the time and place of the convention and urge that the Sunday Schools elect delegates to said convention as soon as convenient and send the names of the delegates to the chairman of the executive committee at Atoka. Atoka is making preparations to entertain a thousand delegates during the convention and it is very necessary that the names of the delegates be sent to the local committee at least a week before the convention convenes. The superintendents and pastors of the Sunday Schools and churches in Atoka are making announcement of the coming convention at each service. This they have agreed to do up to the time the convention assembles. Will the superintendents and pastors who are interested in this work please keep the convention before their people and urge them to elect the necessary delegates? Atoka is going to entertain all delegates free. In order to do this successfully, we will have to have the names of all the delegates early in May so that we may have them placed before the date of the convention. We are going to have with us during the convention Marion Lawrence of Toledo, Ohio, who is the general secretary of the Sunday schools of the United States and one of the greatest Sunday school workers in the world; Granville Jones of Texas, another star in Sunday school work will be present and take part in the program; also Mr. L. L. Allen of Missouri.  
In order to make this coming convention a decided success, it will be necessary for all Christian people throughout the country to take active part and deep interest in the work and see that the matter is not neglected. The Atoka people as well as the members of the executive committee are anxious that every Sunday school in the Indian Territory be represented at the convention.  
Trusting that the pulpit and the press will keep the convention before the people up to the time that it meets and that there will be a thousand delegates in attendance, I am,  
Yours very truly,  
G. T. Ralls,  
Chairman of Executive Committee of Atoka.

## OUR STORE

Will be closed all day Tuesday to make room for the sale.

WANTED:—Extra clerks and cash boys or girls. Apply at store Tuesday. Store opens at 8 a. m. Wednesday, April 11. Sale continues for 10 days.

## Wednesday, April 11, at 8:00 a. m.

At the Big Reed & Harrison and A. R. Sugg & Co's. Furniture Store.

The whole city will be astir. The people for miles and miles will be in an uproar. The greatest cash getting sale that has ever been inaugurated is scheduled to take place regardless of weather or conditions in the town of Ada, Wednesday, April 11, at 8 a. m. The call is here for you. Your dollar will do wonders. It is a merchandise battle such as never before witnessed within the walls of the city. Two large merchandise establishments behind the guns with sleeves up, working as never before in our lives to turn these gigantic stocks into cash. It's simply pouring cannon balls into those so-called war price cryers, who usually clamor for their regular 50 per cent. With us it is cash we want and not large profits. Your hard earned dollar will do wonders and it's facts in large letters that one dollar with us will do more cash buying for 10 days than two will do elsewhere on hundreds of items. Come, see for yourself. We can show you.

Commencing Wednesday, April 11, at 8 a. m., and continuing for ten days without break, rain, sunshine or blizzard, the battle for cash begins with Reed & Harrison to the wheel, with all of our clothing, all of our dress goods, all of our shoes, all of our socks, suspenders and handkerchiefs, all of our shirts, all of our men's underwear, all of our dry goods, notions, all of our towels, and ten thousand other items too numerous to mention, together with all of our tables, chairs, dressers and pictures, all of our carpets and rugs, all of our davenports and hammocks, and hundreds of other furniture items, under the combined roofs of these two mammoth stores, comprising \$30,000 worth of high class dry goods, clothing, shoes, furnishings, etc., for Reed & Harrison, together with \$15,000 worth of fine furniture of the A. R. Sugg Co.'s store put upon the market at cash getting prices, low enough to cause competition to quake and tremble, and makers to weep tears of deep sorrow. War price cryers will holler, but we can't help it. It's cash we are after. Only 10 days to do the work of a month. Cash, we must have a barrel full and not a small one either. We are sending word to all the people that Wednesday, April 11, at 8 a. m., two mammoth stocks are launched upon the sea of low prices for a struggle of a lifetime for the almighty dollar. Your dollar will do wonders for ten days at these two large stores. It will do the work of two elsewhere. Remember the date, Wednesday, April 11. The place, Reed & Harrison and A. R. Sugg Co. A sale long to be remembered. Your friends will all be here. It is to your interest to come too. Below we quote you a few of the thousands of bargains to be found for 10 days. Read every price carefully.
